Handcrafted Traditional Casegoods
Woodbury-Winthrop Edition-Jamestown-Stanford Edition

Jamestown has been expanded to offer the specifier the largest selection of traditional configurations and floor planning solutions in the industry. From optional moldings to antique mottled acrylic doors, Jamestown offers creativity at affordable prices.

Today's professional offices require technical support and organization that facilitate efficiency from a smaller workforce. Jamestown offers modern solutions that can be configured from standard traditional product, saving time and cost.

Rapidly changing office environments require floor plan flexibility, which has been a challenge in traditional casegoods. Jamestown modular offers traditional styling in a non-handed, reconfigurable format of assembled shells and freestanding cabinets, that greatly reduces installation and reconfiguration costs.

Dar•Ran's wide selection of traditional products includes casegoods, conferencing, reception, and modular wall cabinets assures interior coordination and specification ease.

MEETING

RECEPTION

Dar•Ran's traditional collections offer a variety of workplace solutions and consistent detailing from the private office to meeting rooms and lobby's. A choice of accents allow the specifier to bring Woodbury / Winthrop and Jamestown / Stanford elements into all areas of a facility.

Traditional Reception integrates function and detail, projecting the desired professional image. The 44" height exterior paneling provides privacy and workflow accessories such as tack surfaces, slatwall, and marker boards. Dar•Ran's **BAC■GUARD™** anti-microbial finish helps to minimize the spread of disease by inhibiting the growth of bacteria and fungus on furniture.
